

**Technical Support**

 1.800.672.PAXT

 [support@paxton-access.com](mailto:support@paxton-access.com)

Technical help is available: Monday - Friday from 02:00 AM - 8:00 PM (EST)  
Saturday from 04:00 AM - 08:00 AM (EST)

Documentation on all Paxton products can be found on our web site - <http://www.paxton-access.com/>

**Desktop Reader**

The desktop reader is designed to sit next to the PC. It is used for adding tokens to a Net2 system and also for identifying lost cards. Additional workstations can also have desktop readers.

With the Net2 software running, any new token presented above the desktop reader will cause the new user wizard to appear with the appropriate card number displayed. The users details can then be entered and the token issued.

If the token is already known to the system, the relevant user's record will appear.

**Installation**

**This unit is for Indoor use only.**

Plug the reader into a convenient USB port on the PC with the supplied USB cable.

Stop and then restart the Net2 server program. The device will now be available to the Net2 program.

This unit requires Net2 v3.09 or later software. Support for Mifare cards requires v4.17 or later. Call Technical Support if you require a software upgrade.

Net2 USB desktop reader – options	
Part number	Description
514-326-US	Net2 USB desktop reader

## Power Supply

The power for the unit is supplied via the USB cable. No additional supply is required.

Wiring methods shall be in accordance with the National Electrical Code (ANSI/NFPA70), local codes, and the authorities having jurisdiction.

## Maintenance

Following the completed installation of this equipment, no further maintenance or testing is required.

It is advisable to ensure that any third party backup power supplies or recovery procedures are checked regularly to ensure that the operation of the Paxton Access system is not compromised.

<b>Specifications</b>			
<b>Environment</b>	Min	Max	
Operating temperatures - all items	-20 °C ( -4 °F )	+55 °C ( + 131 °F )	
Waterproof			No
<b>Electrical</b>	Min	Max	
Voltage			5V DC
Current		100 mA	
<b>Dimensions</b>	Width	Depth	Height
	4 1/2 inch	3 inch	3/4 inch

**All interconnecting devices must be UL Listed.**

### FCC Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
