

Paxton10 - Bluetooth hands free Keyfob

Paxton10

Overview

The handsfree keyfob provides ultimate simplicity in access by simultaneously supporting long range, handsfree, and contactless token modes when used with any Paxton10 reader. The Paxton10 handsfree keyfob combines the latest NFC and Bluetooth™ technology together in a compact form factor.

The inclusion of NFC allows the keyfob to continue to function as a RFID token even after the battery has expired.
