The stainless steel K38/K50/K75/K75 screw connector Keypads are devices that offer the simplicity of PIN or Code authentication for system users.

They are available for use with both Switch2 and Net2 systems. The reader is wired as shown on the control unit label.

The 75 Series variant is also optionally available with a screw connector version making cabling even simpler.

By default, all 3 LEDs are lit. If access is granted, the green LED flashes and an audible tone is emitted. Incorrect PINs will not return an access denied response.
Dimensions

**K38ss**
- 38 mm (1.5")
- 13 mm (0.5")
- 75 mm (3")
- 143 mm (5.6")
