The Vandal resistant compact metal keypad is a single door access control system. The keypad is manufactured using a cast metal housing and is supplied with a choice of a metal mounting plate or a metal surface mounting box. This robust keypad is also backlit for ease of use in low lighting conditions.

All compacts are standalone, meaning that they do not use a PC in their set up. The Compact products are a control unit and reader in one; they are great for lower security internal and external doors that need to have restricted access.

A PIN is entered using the keypad. The reader checks the validity of the PIN and grants or denies access as appropriate.
Dimensions

- 89 mm 3.5”
- 40 mm 1.6”
- 28 mm 1.1”
