Welcome

This Product Selection Guide is designed to help you to choose the right products to build up an access control system.

Paxton produce a variety of security solutions to suit different site requirements. Our one door philosophy means doors can be added as required or when budget becomes available.

Paxton Readers Now Have Genuine HID Technology™

The majority of Paxton readers can now read HID™ 125kHz Proximity tokens, when enabled with an activation license card. If required these readers can still be enabled to have Wiegand, via a separate activation license card. Look for applicable readers in the Net2 Readers section from page 9.

Entry Audio Monitor

The audio monitor is the latest addition to the Entry intercom range. The cost-effective, audio only monitor fully supports all Entry functionality, where video is not required. The sleek, contemporary design ensures the new monitor will fit discreetly into any surroundings. The audio monitor is compatible with our networked access control system Net2 - see page 22.

Paxton Connect app

Our app for Net2 site management, Paxton Connect, provides easy and flexible site management for sites running Net2. The app contains five features in one smart user interface and enables Net2 System Engineers and Net2 Operators to manage multiple sites remotely on the go. The app is available to download on Apple and Android devices - see page 15.
Net2 is Paxton’s flagship access control product. A powerful networked system that addresses the needs of the mid-market.

- Modular approach for simplicity and scalability
- Simple intuitive software
- Range of features that move beyond basic access control
- A complete solution that encompasses wireless and door entry.
Net2 plus
Wired Controller

- A networked IP ready single door controller
- On-board TCP/IP connection allows direct connection to a network
- Can connect together with dedicated RS485 network

The Net2 I/O board is a simple, yet powerful addition to the Net2 system. It can be wired alongside a Net2 door controller, to switch power on and off to electrical equipment to save money and energy. The Net2 I/O board can control power to elevators, lighting, heating, water and air-conditioning by using the Triggers and Actions application in the Net2 software. These actions can be programmed for a particular time, or in response to a specific Net2 event.

- Connect directly to a LAN/WAN only
- Enable integration with elevators, lighting, heating and more
- 4 inputs and 4 outputs on the Net2 I/O board

Please note, Net2 I/O boards work as part of the Net2 system. They are not door controllers.
Net2 Readers Pre-Activated with Genuine HID Technology™

The pre-activated Net2 series of readers with Genuine HID Technology™ come pre-enabled with HID™125kHz Proximity out of the box. HID™ license activation is not required. These readers can also include an optional HID™ Wiegand output with a separate purchase of a Wiegand activation card.

Video Intercom

Entry is a video intercom system that works standalone or alongside Net2 access control, combining door entry with key features of Net2.

Entry is a scalable solution, allowing expansion of up to a hundred panels and a thousand monitors.

- Just 3 components - monitor, panel and door controller
- Premium, standard, audio, and vandal resistant solutions available
- Intruder alarm integration - set the alarm in Net2 from the Entry panel for extra convenience
- Pan/tilt camera functionality to capture an angled view
- Low light sensitivity camera - ideal for use day or night
- SIP compatibility - the door can be answered from cell phone, tablet or PC
- Add a secondary IP camera for higher security sites
Entry

A smart, simple video intercom system.

- Panels available in three variants: the Entry Touch panel with an advanced 7-inch color touch screen, Entry Standard panel in anthracite grey and the Entry VR panel in super durable stainless steel.
- All variants available in flush, surface and rain-hood versions - suitable for a range of environments.
- Three monitors available, including premium and audio, to create a custom solution for any site.
- Personalize the Entry Touch panel with multiple theme options and contact images for quick visual recognition.
- Video voicemail, enables visitors to leave a video message.
- Add a secondary IP camera for higher security sites.
- Reads Paxton and MIFARE® token technology.

* Indicates readers that have functionality to read HID™ 125kHz Proximity when enabled using Genuine HID Technology™ 125kHz Proximity activation license cards, sold separately (see Tokens section, pg.14).

Entry Premium monitor - surface mount with handset

- Sales code: 337-292-US

Entry Premium monitor - desktop stand

- Sales code: 337-294-US
Entry Audio Monitor

The audio monitor fully supports all Entry functionality, where video is not required.

- Sleek, contemporary design to fit discreetly into any surroundings
- Flexible installation options; can be wall mounted or used with an adjustable desk stand
- Available with or without a handset
- Action buttons configurable for a range of requirements
- Optional connection to a sounder or beacon to offer enhanced, accessible call notification
Demo Cases

Demo cases contain everything you need to demonstrate a one door system.

Additionally, show your customers the benefits of our simple video intercom solution in just two minutes, with the new Entry video. Watch it here: [http://paxton.info/3143](http://paxton.info/3143)

**Entry now works Standalone**

Our standalone access control is a non-networked system that provides a simple and low maintenance solution made up of readers or door controllers.

- Quick system installation with no servers or PCs required
- Simple user management
- Combine with other Paxton standalone products
- Build an entire easy-to-use system supporting the same tokens across the site
- Easily expand and upgrade to an online Net2 solution with no hidden costs
- Enable offline token-based access control on any Entry site

We also have NEW standalone colored keyfobs and function cards to make it even simpler to manage access control within the system

**Watch the New Entry Video**

Show your customers the benefits of our simple video intercom solution in just two minutes, with the new Entry video.

- Featuring the whole Entry range, including the new touch panel and premium monitor
- Just 3 components that auto-detect on set up
- Discover a scalable solution that suits a variety of locations

**Watch it here:**

Paxton BLU is a cloud-based access control system. The system can be managed from anywhere via any Internet connected PC or wireless device.

- Ideal for a range of sites, including where traditional access control is not an option
- Simple set up with no local server or network* required
- Ultimate flexibility - multi-user, multi-site
- Quick, hassle free install
- Powered by Amazon Web Services™, offering complete security

Please note: Paxton BLU hardware will be discontinued on July 1, 2020 - See page 27 for details

*If no local network connection is used then optional Paxton BLU 3G Modem Kit is required
Paxton BLU

Intuitive access control in the cloud.

- Access from anywhere with internet connection, via PC or wireless device
- Ideal for a range of applications, including remote or unmanned sites
- Ultimate flexibility - multi-user, multi-site
- Secure thousands of sites
- Simple token administration, on site & remotely
- No network or IT support needed with 3G modem option
- Powered by Amazon Web Services™, offering complete security

In order to use Paxton BLU, the purchase of the Master Controller license is required.

Sales code 838-540-US
Please note: Paxton BLU hardware will be discontinued on July 1, 2020*

Paxton BLU orders will be accepted until June 30, 2020.
For more information, please contact your Regional Sales Manager - [http://paxton.info/3714](http://paxton.info/3714)

*214-326-US, Desktop reader with Keyboard Output, USB will not be affected by the discontinuation of Paxton BLU. This product will still be available for purchase with the Net2 system - see page 16.
Standalone Access Control

Standalone access control is the simplest way to secure and control access through doors around your building. If you're looking to step up security, protect your staff and assets and save money, then Standalone access control is for you.

- A non-networked access control solution
- Simple and unique card management system
- Internal (Compact)/external (Switch2)
- Suitable for small to medium sized premises, or any site looking to secure a small number of doors
**Switch2**

Switch2 is a standalone system that comes as a separate single door controller and reader. The door controller is fitted on the secure side of the door, with the reader fitted on the other side. Switch2 offers a secure solution for customers wishing to control door access, who do not need the reports on users’ movements provided by a PC based access control system.
Switch2 Readers

These readers are for use with Switch2. Designed to fit in seamlessly in any environment, our wide range means you get the right choice for your site requirements.

We offer practical hands-on training for our Net2 system. The BICSI CEC registered program is designed to provide you with the essential knowledge needed to install Paxton products.

- Ensure accurate installation
- Reduce time on site
- Courses are free of charge
- Materials and equipment provided

For more information and to book a session, go to [http://paxton.info/3139](http://paxton.info/3139).

Industry leading technical support

Call Paxton and you will be put straight through to our expert support team. Our friendly team is available from 2am-8pm EST Monday-Friday.

Call: 877.438.7298
Email: supportUS@paxton-access.com
Skype: USAPaxton.support

Sales literature

We offer an extensive range of brochures and sales guides to support you every step of the way, from sales to specification. All documentation is available to download from our website at [http://paxton.info/1549](http://paxton.info/1549).

Case studies

Find out how the Net2 system can be adapted to meet a range of diverse requirements by reading our latest case studies. We have a range of examples covering education, healthcare, retail, leisure, commercial and public buildings.

See our latest case studies here: [http://paxton.info/3140](http://paxton.info/3140)

Net2 integration

We want to ensure that we are providing the most sophisticated solutions available. We do this by working with quality manufacturers to provide the best of breed solutions and making them available to you. You can see a map of our Net2 integration partners at [http://paxton.info/2958](http://paxton.info/2958).

Sign up to our newsletter

Paxton 5 year warranty and hassle free returns policy

We offer a five year guarantee on all our products.

If a problem arises, all you have to do is return your Paxton product to your local distributor.

We want to make life as easy as possible for installers of Paxton products. Our five year warranty and hassle-free returns policy helps us to do this successfully.
