Smart access control and door entry systems

Product Selection Guide
Welcome

This Product Selection Guide is designed to help you to choose the right products to build up an access control system.

Paxton produce a variety of security solutions to suit different site requirements. Our one door philosophy means doors can be added as required or when budget becomes available.

What’s new?

PaxLock Pro

PaxLock Pro is the latest addition to our wireless access control solutions, in a door handle. The universal design enables quick and simple installation on both a networked or standalone site. Its robust design ensures it is built to last, providing a time and energy efficient access control solution - see page 6.

Paxton Connect Admin app

Our app for Net2 site management, Paxton Connect Admin, provides easy and flexible site management for sites running Net2. The app contains five features in one smart user interface and enables Net2 System Engineers and Net2 Operators to manage multiple sites remotely on the go. The app is available to download on Apple and Android devices - see page 17.

Net2 Entry Audio Monitor

The audio monitor is the latest addition to the Net2 Entry door entry range. The cost-effective, audio only monitor fully supports all Net2 Entry functionality, where video is not required. The sleek, contemporary design ensures the new monitor will fit discreetly into any surroundings. The audio monitor is compatible with our networked access control system Net2 - see page 24.
Networked Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

- Net2 is Paxton’s flagship access control product
- A powerful networked system that addresses the needs of the mid-market
- Modular approach for simplicity and scalability
- Simple intuitive software
- Range of features that move beyond basic access control
- A complete solution that encompasses wireless and door entry
**Net2 plus Wired Controller**

- A networked IP ready single door controller
- On-board TCP/IP connection allows direct connection to a network
- Can connect together with dedicated RS485 network

Networked Access Control

Building Control - I/O Board

When a valid fob is presented to the reader, the I/O board can be programmed to trigger the power to lighting, heating and electrical equipment.

The Net2 I/O board is a simple, yet powerful addition to the Net2 system. It can be wired alongside a Net2 door controller, to switch power on and off to electrical equipment to save money and energy. The Net2 I/O board can control power to lifts, lighting, heating, water and air-conditioning by using the Triggers and Actions application in the Net2 software. These actions can be programmed for a particular time, or in response to a specific Net2 event.

- Connect directly to a LAN/WAN only
- Enable integration with lifts, lighting, heating and more
- 4 inputs and 4 outputs on the Net2 I/O board

Please note, Net2 I/O boards work as part of the Net2 system. They are not door controllers.
Net2 Readers

These readers are for use with Net2. Designed to fit in seamlessly in any environment, our wide range means you get the right choice for your site requirements.

Proximity reader - P38
Sales code 333-110 Price £120.00

## Top 5 Markets for Access Control

Increase your revenue by selling to a wider range of markets where access control is the ideal solution.

Net2 system can be adapted to meet a range of diverse requirements. The top five markets we recommend commissioning and installing, include:

- Healthcare
- Education
- Retail
- Leisure
- Commercial

See our latest case studies here: [http://paxton.info/3016](http://paxton.info/3016)

Door Entry

Net2 Entry is a door entry system that works standalone or alongside Net2 access control, combining door entry with key features of Net2. Net2 Entry is a scalable solution, allowing expansion of up to a hundred panels and a thousand monitors.

- Just 3 components - monitor, panel and door controller
- Premium, standard, audio, and vandal resistant solutions available
- Intruder alarm integration - set the alarm in Net2 from the Net2 Entry panel for extra convenience
- Pan/tilt camera functionality to capture an angled view
- Low light sensitivity camera - ideal for use day or night
- SIP compatibility - the door can be answered from smartphone, tablet or PC
- Add a secondary IP camera for higher security sites
**Net2 Entry**

**A smart, simple door entry system.**

- Panels available in three variants: the Net2 Entry Touch panel with an advanced 7-inch colour touch screen, Net2 Entry Standard panel in anthracite grey and the Net2 Entry VR panel in super durable stainless steel.
- All variants available in flush, surface and rain-hood versions - suitable for a range of environments.
- Three monitors available, including premium and audio, to create a custom solution for any site.
- Personalise the Net2 Entry Touch panel with multiple theme options and contact images for quick visual recognition.
- Video voicemail, enables visitors to leave a video message.
- Add a secondary IP camera for higher security sites.
- Reads Paxton and MIFARE® token technology.

NEW

Net2 Entry Audio Monitor

The audio monitor fully supports all Net2 Entry functionality, where video is not required.

- Sleek, contemporary design to fit discreetly into any surroundings
- Flexible installation options; can be wall mounted or used with an adjustable desk stand
- Available with or without a handset
- Action buttons configurable for a range of requirements
- Optional connection to a sounder or beacon to offer enhanced, accessible call notification
Demo Cases

Demo cases contain everything you need to demonstrate a one door system to your customers.

Additionally, show your customers the benefits of our simple video door entry solution in just two minutes, with the new Net2 Entry video. Watch it here: [http://paxton.info/3019](http://paxton.info/3019)

Net2 Entry now works Standalone

Our video door entry system now works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers’ requirements and be upgraded to an online Net2 solution, with no hidden costs.

- Enable offline token-based access control on any Net2 Entry site
- Simple user management utilising Paxton’s standalone functionality
- Upgrade existing standalone sites with video door entry for extra convenience
- Combine with other Paxton standalone products to build an entire easy-to-use system supporting the same tokens across the site
- See Standalone card packs on page 34

Watch the New Net2 Entry Video

Show your customers the benefits of our simple video door entry solution in just two minutes, with the new Net2 Entry video.

- Featuring the whole Net2 Entry range, including the new touch panel and premium monitor
- Just 3 components that auto-detect on set up
- Discover a scalable solution that suits a variety of locations

Watch it here: http://paxton.info/3019
Standalone Access Control

Standalone access control is the simplest way to secure and control access through doors around your building. If you’re looking to step up security, protect your staff and assets and save money, then Standalone access control is for you.

- A non-networked access control solution
- Simple and unique card management system
- Internal (Compact)/external (Switch2)
- Suitable for small to medium sized premises, or any site looking to secure a small number of doors
- Net2 Entry and PaxLock Pro now work in standalone mode
Switch2

Switch2 is a standalone system that comes as a separate single door controller and reader. The door controller is fitted on the secure side of the door, with the reader fitted on the other side. Switch2 offers a secure solution for customers wishing to control door access, who do not need the reports on users’ movements provided by a PC based access control system.

Switch2 controller

Net2 Entry

Our video door entry system now works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers’ requirements and be upgraded to work with Net2, with no hidden costs.

See page 24 for more information

PaxLock Pro

The latest addition to our range of wireless access control solutions, in a door handle can also be installed in standalone mode for use on sites not requiring the additional functionality of an online system. It’s flexible upgrade path from standalone to networked creates a solution which can evolve with the needs of your customer. Internal and external versions are available in both black or white.

See page 6 for more information

Free installer training

We offer practical training for installers for our complete range of networked, standalone and door entry products. Sessions are designed to provide you with the essential knowledge needed to install Paxton products quickly and efficiently.

- Ensure accurate installation
- Reduce time on site
- Courses are free of charge
- Materials and equipment provided

For more information and to book a session, go to [http://paxton.info/1940](http://paxton.info/1940).

End-user training is also available; for more information and pricing, contact [training@paxton.co.uk](mailto:training@paxton.co.uk).

Industry leading technical support

Call Paxton and you will be put straight through to our expert support team, based at Paxton House. Our friendly team are available from 7am-7pm Monday-Friday, and 9am-1pm on Saturdays.

Call: 01273 811011
Email: support@paxton.co.uk
Skype: paxton.support

Sales literature

We offer an extensive range of brochures and sales guides to support you every step of the way, from sales to specification. All documentation is available to download from our website at [http://paxton.info/474](http://paxton.info/474).

Case studies

Find out how the Net2 system can be adapted to meet a range of diverse requirements by reading our latest case studies. We have a range of examples covering education, healthcare, retail, leisure, commercial and public buildings.

See our latest case studies here: [http://paxton.info/3016](http://paxton.info/3016)

Net2 integration

As UK market leaders in access control, Paxton want to ensure that we are providing the most sophisticated solutions available. We do this by working with quality manufacturers to provide the best of breed solutions and making them available to you. You can see a map of our Net2 integration partners at [http://paxton.info/2487](http://paxton.info/2487).

Newsletter sign up

The Paxton Installer is your monthly newsletter, containing the latest news, product information and updates from us. Every month your copy of the Paxton Installer will arrive in your inbox - full of useful information that will make your job easier and help you to win more business.

Sign up now: [http://paxton.info/3020](http://paxton.info/3020)
Paxton 5 Year Guarantee
and Hassle Free Returns Policy

We offer a five year guarantee on all our products. If a problem arises, follow these three simple steps and we will get your return sorted:

1. Call into Support if a problem arises on site, Support will then troubleshoot the issue.
2. If the issue cannot be solved, you will be supplied with a returns number.
3. Within 30 days you can either:
   a. Send the product directly to Paxton with the returns number for an exchange
   b. Return to your distributor for an exchange

Distributors - Where to Buy

Our UK distributors are listed below. We regularly review their stock and make sure that it is up-to-date, correctly stored and free from defects. To ensure the quality of your Paxton system, we advise that you purchase only through a franchised distributor.
