

Connecting a Kantech IOPROX P225XSF reader

Overview

The reader was tested with a Net2 Plus V6.00.7508 using ioProx - UID Length 32 Bits.

The reader emits a constant Red LED, when a valid token is presented the reader will display a steady Green LED should the user be granted access. When a user is denied access the LED will flash RED and Green.

Cable Pinout	ACU terminal
Power	+12V
-	Red LED
