Smart access control
and door entry systems

Product Selection Guide
Why work with us?

Easy to quote
- Build your system one door at a time
- A range of products to suit any site requirement
- Scalable system – add doors when the budget is available

Easy to install
- Plug and play solutions that connect directly to the network
- Mix and match Net2 products – they are all designed to work together seamlessly
- Clear instructions and colour coded wiring labels

Easy to work with
- Industry-leading technical support
- 5-year guarantee and three step returns policy
- Free software upgrades and no multiple licence fees

Easy to quote Easy to install Easy to work with
The Paxton Installer App

Paxton in Your Pocket – the Ultimate Installer Tool

The new Paxton Installer app gives you instant access to all the tools you need to install Paxton products. The free app, available for iOS and Android, provides quick and easy access to product specs and technical information, plus anything you could need on-site!

- Superfast access to product information
- Get answers to your FAQs
- Be the first to hear Paxton news
- Find your distributors
- Dial direct to Paxton Technical Support

[Links to App Store and Google Play]
Welcome

This Product Selection Guide is designed to help you to choose the right products to build up an access control system.

Paxton produce a variety of security solutions to suit different site requirements. Our one door philosophy means doors can be added as required or when budget becomes available.

What’s new?

Paxton10

Paxton10 is a single platform solution combining access control and video management. It is a versatile solution that supports multi-site management and remote access. Scalable from 1 to 1000 doors, and 1 to 1000 cameras, Paxton10 is suitable for all building types and sizes.

- Easy to quote and configure, build a complete system with just five components
- Manage multiple sites on a single system remotely
- Web-based user interface with no configuration required
- Custom dashboards to suit any user requirements
- Built in Bluetooth® to use phone or smart watch smart credentials
- Works with Entry and PaxLock Pro

See page 23
Networked Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

- Net2 is Paxton’s flagship access control product
- A powerful networked system that addresses the needs of the mid-market
- Modular approach for simplicity and scalability
- Simple intuitive software
- Range of features that move beyond basic access control
- A complete solution that encompasses wireless and door entry
Net2 plus
Wired Controller

- A networked IP ready single door controller
- On-board TCP/IP connection allows direct connection to a network
- Can connect together with dedicated RS485 network

Net2 nano

Wireless Controller

- A wireless single door controller
- Communicates to the server using Net2Air technology via a Net2Air Bridge
- No cable required between Net2 nano and the server PC, reducing installation time

Product tutorials

We have a series of Net2 software tutorial videos available, they illustrate how you can get the very best from the Net2 software, and offer your customers more from their access control system.

Watch them here:

Networked Access Control

**PaxLock Pro**

Wireless Controller

- Standalone or networked
- Simple upgrade path from standalone to networked
- Dual-frequency proximity reader
- EN179 Certified for emergency exits
- FD30 and FD60 certified for fire doors
- Compatible with DIN standard locks

**Net2Air Bridge**

In response to your feedback, the Net2Air Bridge has been redesigned, with a low profile which can be wall or ceiling mounted for a quick and simple installation.

*More about it here: [http://paxton.info/1387](http://paxton.info/1387)*

Net2 Air Bridge

These products may be used with Net2 PaxLock to aid installation on a variety of doors.
Networked Access Control

Building Control - I/O Board

When a valid fob is presented to the reader, the I/O board can be programmed to trigger the power to lighting, heating and electrical equipment.

The Net2 I/O board is a simple, yet powerful addition to the Net2 system. It can be wired alongside a Net2 door controller, to switch power on and off to electrical equipment to save money and energy. The Net2 I/O board can control power to lifts, lighting, heating, water and air-conditioning by using the Triggers and Actions application in the Net2 software. These actions can be programmed for a particular time, or in response to a specific Net2 event.

- Connect directly to a LAN/WAN only
- Enable integration with lifts, lighting, heating and more
- 4 inputs and 4 outputs on the Net2 I/O board

Please note, Net2 I/O boards work as part of the Net2 system. They are not door controllers.
Net2 Readers

These readers are for use with Net2. Designed to fit in seamlessly in any environment, our wide range means you get the right choice for your site requirements.

* one demo case per customer
Easy to quote and configure, build a complete system with just five components.

Manage multiple sites on a single system from anywhere with an internet connection.

Web-based user interface with no configuration required.

A range of cameras available as well as being compatible with third-party IP video cameras.

Custom dashboards to suit any user requirements.

Built in Bluetooth® to use phone or smartwatch smart credentials.

Works seamlessly with Entry and PaxLock Pro.

Paxton10 is a single platform solution combining access control and video management. Scalable from 1 to 1000 doors, and 1 to 1000 cameras, Paxton10 is a versatile solution suitable for all building types and sizes.
**Paxton10**

**Access control. Video management. One system**

- Single door controller architecture for ease of install and flexibility
- Feature rich video management solution embedded in the cameras, no third-party integration required
- Built-in Bluetooth® wireless technology, supports free of charge smart credentials
- Fully compatible with Entry, our award-winning video and audio door entry solution
- Fully compatible with PaxLock, our wireless door handle range
- Distributed intelligence to increase reliability
- Powerful multifORMAT readers and keypad, reads Paxton, MIFARE®, HID™ Prox, EM, FeliCa, NFC and DESFire token technology

**Paxton10 Door Controller - 12V 2A PSU**

Sales code | Price
--- | ---
010-751 | £390.00

---

The Paxton10 Server is an Intel manufactured product and is therefore not covered by the Paxton 5-year guarantee. Paxton supports a 3-year warranty for this product, as supplied by Intel.
Paxton10 integrates with fire and intruder alarms to simplify building management.

You can see a list of all the available integrations for Paxton10 at paxton.info/4969.
Access Control and Video Management

Paxton10 Cameras

Paxton10 includes Paxton’s own video management solution and range of cameras, providing a single point of management for system users. A Paxton10 system can manage up to 1000 cameras including integration with third party IP cameras.

- Vari-focal and mini (2.8mm) options available
- Industry leading low light performance (0.01 Lux)
- 8MP 4K resolution for crystal clear recording
- IP67 rated for internal and external use
- IK10 rated robust metal construction
- 128GB surveillance quality on camera storage included
- Edge and centralised recording capability
- Simple configuration

The Paxton10 cameras come with a 128GB SD card as standard. Please note, the SD card is a consumable item and is therefore excluded from the guarantee.

Paxton10 Software
A web-based user interface that is intuitive and easy to use.

Accessible from any device with an internet connection, the interface makes remote site management simple. The software comes as a native part of the system with a Paxton10 server. It has a range of intelligent features to maximise efficiency and optimise the combined access and video management solution.

- Web-based software – no installation, plug-ins or upgrading required
- Free of charge – simple online updates with no ongoing charges
- Suitable for touchscreen and desktop devices
- Optimised for use on PCs and tablets
- Low battery alerts, easy to monitor back up battery state
- Flexible and secure remote access

Features:
- Dashboards - Customised dashboards to suit any user requirements
- Reports - Powerful reporting engine where all system events and videos can be reviewed
- Site plans - For the visual management of the system
- Tutorial wizards - Support new and existing users to make full use of the software
- People - Manage user permissions, credentials and information
- Rules - Set permissions, time profiles, triggers and actions and much more
- Devices - Configure and manage the devices in a building

Paxton Connect
Flexible site management

The Paxton Connect app provides easy and flexible site management for Paxton10. Containing easy to use features in one smart user interface, Paxton Connect enables you and your customers to manage multiple sites remotely from a smartphone.

Features:
- People - Manage user permission, credentials and information
- Reports - Access all system reports from your smart device or tablet
- Devices - Configure and manage all devices on site
- Dashboards - Access custom dashboards for personalised system overview

Paxton Key
Utilise smart devices as access tokens

The Paxton Key app allows system users to make use of their smartphone, smartwatch or tablet in place of traditional tokens. These are called smart credentials and can be issued free of charge. Utilising the built-in Bluetooth® wireless technology in Paxton10 readers, the smart device can securely communicate with the Paxton10 system to grant or deny access. Paxton Key also enables the user to carry out predefined building management functionality – such as setting the intruder alarm.

Download the free apps from the App Store or Google Play

www.paxton-access.com  01273 811011  support@paxton.co.uk
Just three components - monitor, panel and door controller

Premium, standard, audio, and vandal resistant solutions available

Intruder alarm integration - set the alarm in Net2 from the Entry panel for extra convenience

Pan/tilt camera functionality to capture an angled view

Low light sensitivity camera - ideal for use day or night

SIP compatibility - the door can be answered from smartphone, tablet or PC

Add a secondary IP camera for higher security sites

The Entry system works standalone or alongside Net2 or Paxton10 to combine door entry with access control. Entry is a scalable solution, allowing expansion of up to a hundred panels and a thousand monitors.

Door Entry
Entry

**A smart, simple door entry system.**

- Panels available in three variants: the Entry Touch panel with an advanced 7-inch colour touch screen, Entry Standard panel in anthracite grey and the Entry VR panel in super durable stainless steel
- All variants available in flush, surface and rain-hood versions - suitable for a range of environments
- Three monitors available, including premium, standard and audio, to create a custom solution for any site
- Personalise the Entry Touch panel, Premium monitor and Standard monitor with multiple theme options and contact images for quick visual recognition
- Video voicemail, enables visitors to leave a video message
- Add a secondary IP camera for higher security sites
- Reads Paxton and MIFARE® token technology

*Indicates readers that have functionality to read HID® 125kHz Proximity tokens, when enabled using Genuine HID Technology™ 125kHz Proximity activation licence cards sold separately (see Tokens section, pg. 18).

Sales code 337-294  Price £45.00
NEW IN ENTRY

Entry Standard Monitor

The latest addition to our door entry range. The new standard monitor is fully compatible with Paxton10 and Net2, as well as working as part of a standalone door entry solution.

- Excellent audio quality, full-duplex voice communication & easy read, high contrast screen
- Personalised experience with 14 theme designs. Premium user interface with call & event log
- Action buttons, call snapshot and compatibility with concierge management*
- Available with or without a handset. Universal wall or desk mounting
- Quick and easy installation, providing a true plug and play solution

*When used with the Entry Premium monitor.

The standard monitor cannot function as the concierge monitor.

NEW Entry now works Standalone

Our video door entry system now works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers' requirements and be upgraded to an online Net2 solution, with no hidden costs.

- Enable offline token-based access control on any Entry site
- Simple user management utilising Paxton’s standalone functionality
- Upgrade existing standalone sites with video door entry for extra convenience
- Combine with other Paxton standalone products to build an entire easy-to-use system supporting the same tokens across the site
- See Standalone card packs on page 42

Watch the New Entry Video

Show your customers the benefits of our simple video door entry solution in just two minutes, with the new Entry video.

- Featuring the whole Entry range, including the new touch panel and premium monitor
- Just 3 components that auto-detect on set up
- Discover a scalable solution that suits a variety of locations

Watch it here: http://paxton.info/3019
Standalone Access Control

Standalone access control is the simplest way to secure and control access through doors around your building. If you’re looking to step up security, protect your staff and assets and save money, then Standalone access control is for you.

- A non-networked access control solution
- Simple and unique card management system
- Internal (Compact)/external (Switch2)
- Suitable for small to medium sized premises, or any site looking to secure a small number of doors
- Entry and PaxLock Pro now work in standalone mode
Switch2

Switch2 is a standalone system that comes as a separate single door controller and reader. The door controller is fitted on the secure side of the door, with the reader fitted on the other side. Switch2 offers a secure solution for customers wishing to control door access, who do not need the reports on users’ movements provided by a PC based access control system.

Entry

Our video door entry system now works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers’ requirements and be upgraded to work with Net2, with no hidden costs.

See page 34 for more information

PaxLock Pro

The latest addition to our range of wireless access control solutions, in a door handle can also be installed in standalone mode for use on sites not requiring the additional functionality of an online system. It’s flexible upgrade path from standalone to networked creates a solution which can evolve with the needs of your customer. Internal and external versions are available in both black or white.

See page 8 for more information
**Switch2 Readers**

These readers are for use with Switch2. Designed to fit in seamlessly in any environment, our wide range means you get the right choice for your site requirements.

**Free installer training**

We offer practical training for installers for our complete range of networked, standalone and door entry products. Sessions are designed to provide you with the essential knowledge needed to install Paxton products quickly and efficiently.

- Ensure accurate installation
- Reduce time on site
- Courses are free of charge
- Materials and equipment provided

For more information and to book a session, go to [http://paxton.info/1940](http://paxton.info/1940).

End-user training is also available; for more information and pricing, contact training@paxton.co.uk.

**Industry leading technical support**

Call Paxton and you will be put straight through to our expert support team, based at Paxton House. Our friendly team are available from 7am-7pm Monday-Friday, and 9am-1pm on Saturdays.

Call : 01273 811011
E-mail : support@paxton.co.uk
Skype : paxton.support

**Sales literature**

We offer an extensive range of brochures and sales guides to support you every step of the way, from sales to specification. All documentation is available to download from our website at [http://paxton.info/474](http://paxton.info/474).

**Case studies**

Find out how the Net2 system can be adapted to meet a range of diverse requirements by reading our latest case studies. We have a range of examples covering education, healthcare, retail, leisure, commercial and public buildings.

See our latest case studies here: [http://paxton.info/3016](http://paxton.info/3016)

**Net2 Integration**

As UK market leaders in access control, Paxton want to ensure that we are providing the most sophisticated solutions available. We do this by working with quality manufacturers to provide the best of breed solutions and making them available to you. You can see a map of our Net2 integration partners at [http://paxton.info/2487](http://paxton.info/2487).

**Newsletter sign up**

The Paxton Installer is your monthly newsletter, containing the latest news, product information and updates from us. Every month your copy of the Paxton Installer will arrive in your inbox - full of useful information that will make your job easier and help you to win more business.

Sign up now: [http://paxton.info/3020](http://paxton.info/3020)
Additional Information

Paxton 5 Year Guarantee and Hassle Free Returns Policy

We offer a five year guarantee on all our products*. If a problem arises, follow these three simple steps and we will get your return sorted:

1. Call into Support if a problem arises on site, Support will then troubleshoot the issue.
2. If the issue cannot be solved, you will be supplied with a returns number.
3. Within 30 days you can either:
   a. Send the product directly to Paxton with the returns number for an exchange
   b. Return to your distributor for an exchange

*Unless otherwise stated

Distributors - Where to Buy

Our UK distributors are listed below. We regularly review their stock and make sure that it is up-to-date, correctly stored and free from defects. To ensure the quality of your Paxton system, we advise that you purchase only through a franchised distributor.
