

Overview

The handsfree keyfob provides ultimate simplicity in access by simultaneously supporting long range, handsfree, and contactless token modes when used with any Paxton10 reader. The Paxton10 handsfree keyfob combines the latest NFC and Bluetooth™ technology together in a compact form factor.

The inclusion of NFC allows the keyfob to continue to function as a RFID token even after the battery has expired.

Features

- Bluetooth®
- NFC
- 1 year battery life
- Compact form factor
- Secure transmission protocol
- Long lasting ABS enclosure

Electrical

Battery Type	CR2450
Battery Life	1 year
Carrier frequency	2.4 GHz Bluetooth® 13.56 MHz NFC

Communication

Read Range	NFC 10mm - 35mm Bluetooth® 0m - 10m
Data connection	Bluetooth®

Hardware

Dimensions (W x H x D)	28mm x 11mm x 49mm
Warranty	Paxton 5 year

Environment

Operating temperature - Battery limits	0°C - +55°C
IP Rating	No
Operates with hands free equipment	Yes
Operates with passive readers	Yes
