

## National Defense Authorization Act (NDAA) Compliance

The National Defense Authorization Act (NDAA) of 2019 prohibits federal agencies from procuring non-NDAA-compliant equipment or entering into contracts with entities that use non-NDAA-compliant equipment.

Paxton10 utilizes non-NDAA-compliant Hikvision camera hardware. Paxton's own video management software is embedded on each of the available Paxton10 cameras. Therefore, Paxton10 cameras are not recommended for use by federal agencies and contractors that offer services or equipment to federal agencies. You are required to disclose whether any equipment banned under the NDAA is being offered to the government.

## Meeting NDAA compliance

Paxton10 can easily meet NDAA compliance via the use of fully compatible 3rd party cameras without sacrificing functionality. A list of fully compatible 3rd party camera options can be found by visiting [www.paxton.info/5128](http://www.paxton.info/5128).

Our experienced customer support team are always happy to help answer any questions you may have. Please refer to the product instructions for contact information.

All other Paxton products are NDAA compliant. Please visit [www.paxton.info/5588](http://www.paxton.info/5588) to view our complete product line.
